Exercise Catalog — the Complete Drill Inventory

Preparation starts **now (August 2026)**; the competition is **February 18–22, 2027**. This catalog lists every exercise in the repository and schedules it into the dated plan (`02-plan/week_by_week_plan.md` governs). Rhythm: the weekend block runs the big items (workshops, simulations); the midweek session runs one workbook exercise + one mini-case; individual drills fill 30 minutes on a third day.

Inventory at a glance

Material	Where	Count	Solutions?
Format mastery quiz	`04-training/exercises/format_quiz.md`	25 questions	Yes
Reading & structuring exercises	`04-training/exercises/workbook1_-reading_and_structuring.md`	5 exercises (on real ABCC cases)	Yes
Quant drills: sizing, exhibit math, sensitivity	`04-training/exercises/workbook2_-quant_drills.md`	4 sets ≈ 30 items	Yes
Storyline, slides & implementation drills	`04-training/exercises/workbook3_-storyline_and_slides.md`	5 exercises ≈ 25 items	Yes
Delivery: pitch, brief, Q&A, choreography	`04-training/exercises/workbook4_-delivery_drills.md`	5 drill formats (6 pitch scenarios, 3 briefs, 24 number-attacks)	Yes
Business math base set	`04-training/business_math_drills.md`	40 drills	Yes
Q&A question banks	`04-training/qa_drills.md`	60 questions	Patterns
Mini-cases Set 1	`05-practice-cases/mini_cases.md`	6 cases + warm-ups	Sketches
Mini-cases Set 2	`05-practice-cases/mini_cases_set2.md`	6 cases + warm-ups	Sketches
Real past-case re-cracks	`01-competition/past_cases.md` + `01-competition/past-case-pdfs/`	10 briefs, 6 PDFs	Model for 1
Original full cases (graded)	`05-practice-cases/`	3 full cases	Teaching notes + rubrics
Model answers (calibration)	`05-practice-cases/model_answers.md`	1 storyline + 1 brief	—

That is ≈ **200 discrete exercises** across knowledge, analysis, quant, storytelling, and delivery — enough for two sessions per week from now to February without repetition.

Week-by-week exercise schedule

Full session plan: `02-plan/week_by_week_plan.md`. This table adds the exercise layer (midweek + homework):

Weeks	Phase	Midweek exercise	Individual homework
W1 (Aug 3)	Kick-off	Format quiz, first pass	Read handbook; charter signed
W2–W3	Foundations	Workbook 1.1 + 1.2 (speed-reads); format quiz to 25/25	Math base set drills 1–10
W4–W5	Foundations	Workbook 1.3 (issue trees) + 1.4 (decompose the ask)	Math 11–20; flashcards 1–30
W6–W7	Skills	Workbook 3.1 (action titles) + 1.5 weekly warm-up starts	Math 21–30; flashcards 31–60
W8	First full crack	Workbook 3.2 (storyline sprint) before the Manitoba Museum re-crack	Watch one finals video with scoresheet
W9–W10	Skills	Workbook 4.1 (3-min pitch, scenarios 1–2) + 2.1 sizing (1–6)	Math 31–40; phrasebook §2–3
W11–W12	Simulations	Workbook 2.2 (exhibit math on real cases) + 4.2 brief (a)	2.4 circuit weekly from here
W13–W15	Simulations	Workbook 3.3 + 3.4 (implementation drills 1–2); mini-cases 1–3	Sizing 7–12; phrasebook §4–5
W16–W18	Simulations	Workbook 4.2 briefs (b)(c); mini-cases 4–6; 4.3 gauntlet after case-1 sim	2.3 sensitivity one-pager
W19–W20	Simulations	Mini-cases 7–9 (Set 2); 3.5 one-slider before boardroom sim	Author your own mini-case (draft)

Weeks	Phase	Midweek exercise	Individual homework
W21–W22	Christmas (light)	—	Flashcards full deck; 1 finals video; 2.4 circuit
W23–W24	Peak / Klangfest sprint	Workbook 4.1 scenarios 3–6; 4.3 gauntlet after rehearsal	Member-authored mini-cases exchanged
W25–W26	Peak	Mini-cases 10–12; member-authored cases cracked; 4.4 choreography before W25 weekend	Format quiz re-certification 25/25
W27–W29	Sprint & travel	Only 4.4 + light 2.4; everything else rests	Pack per runbook; sleep shift

Ground rules for every exercise

Timed, out loud, in English. Solutions stay closed until the attempt is finished. Results that feed the rubric (simulations, graded drills) go into `02-plan/simulation_log.md`; everything else is logged by a one-line note in the team chat ("W7 midweek: 3.1 done, titles improving, Q&A stems next"). If a week collapses, the priority order is: simulation > mini-case > workbook item > individual drills — protect the simulations above all.
