Competition-Day Runbook — ABCC 2027, February 18–22

Hour-by-hour operating sheets for the five days. Times follow the **2025 Event Guide pattern** (the only published full schedule), mapped onto the published 2027 window of Feb 18–22, which falls **Thursday–Monday**. Treat every weekday below as *expected*: all three ABCC-format editions began on a **Wednesday**, so the real 2027 week may instead run Wed Feb 17 – Sun Feb 21 (`01-competition/facts_and_rules.md`, "The 2027 weekday question"). The *shape* of each day — registration and draw, then prepared, boardroom, traditional with finals — is what this runbook drills; rewrite the dates the day the 2027 guide arrives. All times Winnipeg local (CST = UTC−6).

Standing rules (all days)

Business professional in every competition context; boots for outside, shoes carried. Never name HSBI in front of judges — team letter and fictional consulting name only. Phones and smartwatches surrendered before every prep window. The strategist owns the clock; the coach owns nothing after a timed case releases. One 15-minute debrief per round, then the topic is closed. Hydrate; eat before, not during, prep windows where possible. Every evening: chargers plugged, template file opened and tested, next day's call time confirmed in the team chat.

Day 0 — Arrival day (Thu Feb 18 expected)

Time (baseline)	What	Team protocol
afternoon	On site in Winnipeg, ahead of registration	Check prep kit complete (see `03-team/role_playbooks.md` kit list); test laptops + clicker + adapters
~17:00	**Registration + division draw** (venue per the organizers' agenda)	Note the team letter and ALL slot times for the week; photograph the posted schedule; confirm fictional team name usage
evening	Free (dinner not provided)	Light meal; one 25-min prepared-case run-through, then STOP; deck already submitted (deadline was 10:00 CT); bed by 22:30

Day 1 — Prepared case (Fri Feb 19 expected)

Time	What	Team protocol
07:00	Breakfast	Full business professional; no last-minute deck edits — the file is frozen
08:30–09:40	Depart for the venue by slot	Arrive early; find the room; check clicker and screen
09:30–12:00	Presentations in three slot waves, 25 + 15 each	Pre-room ritual (60 s, three keys, one breath); all four speak; yellow at 5, red at 1 — in both segments
~12:00	Lunch	Decompress; no post-mortem yet
~12:50–13:35	**Judge feedback session (15 min)**	Attend without fail; one note-taker; capture rubric language judges use — it calibrates the heavier rounds
afternoon	Social program (The Forks pattern)	Go; be excellent company; judges and organizers remember teams they liked
evening	Event (museum reception pattern)	15-min team debrief max; prep-room kit staged for tomorrow; bed by 22:30

Day 2 — Boardroom case (Sat Feb 20 expected)

Time	What	Team protocol
07:00	Breakfast	Carbs + protein; this is the long day of thinking
08:30–10:15	Depart for the venue by slot; phones surrendered	Template file open; roles confirmed; water bottles filled

Time	What	Team protocol
09:30–14:50	**Staggered 4-h prep** (slot-dependent)	Phase clock per `03-team/role_playbooks.md` (4-h column): P1 0:00–0:25 read → P2 0:25–0:55 lock the recommendation → P3 0:55–2:15 analysis sprint → P4 2:15–3:15 build (deck, one summary slide, one-page brief, appendix bank) → P5 3:15–3:45 number audit + rehearse the 3-minute pitch twice → P6 3:45–4:00 save + USB. Brief and slide wording must match
14:00–17:00	Presentations: 3-min pitch (one slide, red at 1) + 22-min discussion (appendices live, yellow 5 / red 1)	Seated, upright, hands visible; every member speaks in the discussion; quarterback routes questions
~16:30–17:00	Feedback session	Same drill: capture, don't argue
evening	Festival du Voyageur (outdoor!)	Dress for it; enjoy it — then 15-min debrief, kit staged, bed by 22:00 (earliest call tomorrow)

Day 3 — Traditional case + finals + gala (Sun Feb 21 expected)

Time	What	Team protocol
06:45	Breakfast	Earliest start of the week
07:45–09:20	Depart for the venue by slot	Phones surrendered; template open
08:40–13:00	**Staggered 3-h prep**	Same phase clock, 3-h column: P1 0:00–0:20 read → P2 0:20–0:40 lock the recommendation → P3 0:40–1:40 analysis sprint → P4 1:40–2:25 build → P5 2:25–2:50 number audit, rubric check (Implementation & Resources strongest section?), run-through → P6 2:50–3:00 save + USB
12:00–14:40	Presentations 20 + 10	Full energy — 45 % of the score lives here
~14:40–15:10	Feedback session	If finals are possible: treat this feedback as finals Q&A prep
~15:50	**Finalist announcement**	If named: holding room, no advisor contact, deck frozen — pressure-test answers verbally, nothing else. If not: become the best audience in the room
16:20–18:20	Public finals (20 + 15, new judge panel)	Watch and learn either way
18:45 / 19:15	Reception → **awards gala**, Marshall McLuhan Hall	Enjoy; thank judges and organizers personally
22:00	Student mixer	Optional but valuable; sensible hour to bed

Day 4 — Departure (Mon Feb 22 expected)

Before leaving Winnipeg: thank-you e-mail to aspercasecomps@umanitoba.ca from the coach, team photo, and 30 minutes of hot-wash notes into `02-plan/simulation_log.md` while memories are fresh (full debrief happens at home per `02-plan/week_by_week_plan.md`).

Contingencies

Late transfer or lost in the building → leaving 30 min earlier than needed is the plan, not the exception. Laptop failure in prep → the team continues on three; every file lives on the shared drive and a USB stick from minute one. Team member ill → roles collapse per the cross-cover matrix in `03-team/role_playbooks.md`; all four must still speak if physically present. Deck won't open from USB → the .pptx was saved twice (USB + laptop); calmly ask volunteers — the organizers accept no responsibility, so redundancy is ours.
