08 · Briefing slides — the kick-off deck

`abcc_overview.pdf` — the deck the coach presents in W1 to bring the whole team to the same understanding of the competition in one sitting. **24 pages** (20 frames + 4 section pages), Beamer, HSBI house style, in five parts: the competition at a glance · the format and the three rounds plus the final · deliverables before the competition · rules and judging incl. the official rubric · our team and the roadmap.

This is an **internal** deck — it names HSBI and is never shown at the competition. Nothing in `../06-templates/` may inherit from it.

Rebuilding

`abcc_overview.tex` is the source. Twice, so the navigation bar resolves:

```
pdflatex abcc_overview.tex && pdflatex abcc_overview.tex
```

Or upload the `.tex` to Overleaf. LaTeX auxiliaries are git-ignored; the built PDF is committed on purpose, so nobody needs a LaTeX installation to read the deck.

Keep it in step with the rules. The deck restates the rubric, the round formats, and the schedule — all of which trace to `../01-competition/facts_and_rules.md`. It is the second-to-last stop in the propagation order when the 2027 guide lands (`../DOCUMENTATION.md` §5): update the source of truth first, this deck near the end, and rebuild the PDF.

Per-file detail: `../DOCUMENTATION.md` §2.
